# 1 New for 2024-25

In response to feedback from Programme Leaders and Reviewers, the Continuous Enhancement Planning (CEP) process and application have been further improved. A modified version of the CEP application is now active. Here are the main changes that have been made:

- You may include innovative practice in the contextual statement, that has resulted in measurable improvement to their programme.
- When you select 'No Action Required from the drop-down menu under 'Issue', this will automatically change the setting from 'Medium' to 'Complete' under 'Action'.
- EE reports recommendations must be included and where there are 'none' this should be noted as such by clicking 'no action required' in the issue column and not recorded as a 'live' action.
- When the reviewer ticks the 'complete' box, the setting of the box included in 'Action' will automatically go to 'complete'.
- Once an action has been completed and it is signed off by the ADOS AQA (or another assigned reviewer) it will be hidden. There is a box that can be ticked to make the completed actions visible again.
- The date when completed action points are archived has been put back to the 31<sup>st</sup> of July.
- ADoSs AQA will develop a risk-based schedule for reviewing action plans. This may include a meeting with the Programme Leader (face-to-face or via Teams), either individually or in groups.
- New members can now be added to the CEP by emailing the details of the member of staff together with their role/ the reason why they need to be able to access the CEP system to <u>as-systems@herts.ac.uk</u>.
- Not new but a reminder: the current action plan needs to be discussed at each programme committee meeting.

# 2 Introduction

This guidance applies to the continuous monitoring of all Herts based taught programmes of study, including on-line provision. It includes information on the new features added to CEP since the last academic year.

#### 2.1 An overview of the Continuous Enhancement Planning (CEP) Process

The purpose of Continuous Enhancement Planning (CEP) is to assure the quality of the University's taught provision and enhance the student learning experience through incremental and focussed improvement at all levels. CEP will support programme teams in their continual efforts to maintain academic standards; to improve the quality of learning opportunities; to enhance the student learning experience by an ongoing, evidence informed monitoring process; and allow School/Department and University oversight to identify and develop strategic improvement initiatives. CEP adopts a risk-based approach to the extent that it will be informed by core and split metrics and qualitative evidence which will allow programme teams to understand where to focus improvement measures. It is right touch, not light touch. It is action orientated with clear ownership of those prioritised actions.

The CEP is a live process with continuously available action plans, which allow programme teams to manage and track actions, ensuring actions are resolved or escalated in a timely manner.

#### 2.2 The role of the Programme Leader and team

All Programme Leaders / Teams are asked to ensure that they:

• maintain the CEP action plan on behalf of the Programme Committee;

- monitor and update the CEP action plan;
- consult University generated data after each specified CEP Review Point and develop action points;
- are robust in their interrogation of the data;
- develop action points for all recommendations made by the External Examiner;
- review Action Plans to check for the completion of actions by the stated deadline;
- monitor the impact of actions;
- respond to reviewer comments in a time frame agreed with the ADoS (AQA);
- attend and engage in specified enhancement events;
- make use of the 'on-going development' section of the Action Plan this will enable areas of good practice at programme and module level possibly adopted from the School Enhancement Events to be visible in action plans;
- actively consider the CEP Action Plan at each meeting of the programme committee.

# 2.3 The role of the Associate Dean of School (AQA)

Associate Deans of School (AQA) are asked to:

- review the list of programmes on the CEP database for accuracy;
- set up CEP review meetings with Programme Leaders, ADoS(AQA) and ADAQA to discuss CEP actions and impact for all programmes considered to be most at risk. However, it is important to remember that the process is intended to be risk- based and that meetings are not required for all programmes and certainly not each time data is released;
- promote the CEP workshops and resources as well as the CAQA data workshop, to improve the quality of the action plans;
- plan some School based CEP workshops to further support existing and new Programme Leaders;

In addition, Associate Deans of School (AQA) are asked to:

- ensure the School enhancement event take place;
- maintain oversight of the School's CEP action plans;
- sign off completed action in the CEP database;
- check data set from red rated data on Tableau, External Examiner reports, SVQ's and qualitative student feedback that require actions points have been included in the CEP action plan;
- check the timescale initiated for the action are appropriate;
- works with others to advise programme teams on the appropriateness of the actions and the response times, and to evaluate the impact of actions
- ensure External Examiner receive a snapshot of the CEP action plan with the response to their annual report;
- work with others (ADLT, ADAQA, LTIC) to develop and deliver training as required;
- work with their ADoS(L&T), the Associate Director of AQA (CAQA) and Learning and Teaching Specialist (CLASS) allocated to the School to prepare a risk-based schedule of how the CEP Action Plan for each programme in the School will be reviewed during the

forthcoming academic year and how Programme Leaders will be supported in developing their programme's Action Plan. Relevant Subject Heads/Heads of Department/Professional Leads should be consulted. This Schedule is to be presented to the first SAC meeting of the academic year;

• submit an annual report to ASAC which includes a summary of the key issues arising from the School's CEP action plans.

#### 2.4 The role of the Associate Director of Academic Quality Assurance

Associate Directors of Academic Quality Assurance are asked to:

- meet with Programme Leaders and ADoS(AQA) to discuss CEP actions and impact for all programmes considered to be most at risk.
- Review CEP action plans and review School wide data analysis on Tableau (risk-based approach)
- report to the School Academic Committee on:
  - a) areas of good practice
  - b) areas for improvement
  - c) support required by programme teams and
  - d) how that support will be shared with others (e.g. ADLT, ADoS (AQA), LTIC)

# 3 Accessing the Continuous Enhancement Planning Action Plan

All relevant staff have been permitted access. If you cannot access this data base, then please contact your Associate Dean (AQA), who can make sure you are added.

Your Associate Dean (AQA) and Associate Director (AQA) are now able to assign you a specific role, if needed, once you have been added to access the CEP date base.

Locate the channel in MS Teams and open. You will find this under 'Teams':

#### 3.1 Landing page

The CEP home page can be found under the Continuous Enhancement Planning tab.

Programmes can be filtered on the left-hand side of the page by course level, Undergraduate or Postgraduate, and by SBU. The default is a list of all UG or PG programmes but once you have chosen a School, this list is narrowed down to the School's UG or PG programmes.

NB. Combined action plans have been created for some programmes, as requested by the relevant Schools. These are indicated as CMB (Combined) in the list of programmes under the Programme Code column:

# 4 Setting up your Programme Action Plan

#### 4.1 Adding a context statement to your Programme Action Plan

A context statement is required for all programmes.

The context statement sets the scene for the programme. It will include general information: number of students on programme, when it starts, number of semesters it runs in, PSRB approved/accredited, basic student information, e.g. demographics, and any other noteworthy information. This does not require an annual update, but you will need to change it if there are significant changes to the operation of the programme, e.g. if a Semester B intake is added.

The context statement is also the place to include innovative practice that has resulted in measurable improvement to your programme.

To add a context statement, identify your programme and then click on the page icon under 'Contextual Statement':

Clicking on the page icon from either place opens the Context Statement Screen:

TESTMG Test Programr	CEP - Context Statement Screen	$\bigotimes$
	You are asked to provide a context statement to ensure that readers outside the programme team do not misunderstand your data /actions. The context statement would indicate broadly:- • The numbers of students on the programme • when the programme starts and finishes • whether it runs in Semester C • whether it has PSRB or other accreditation • some basic information about the characteristics of the student population of the programme e.g. mainly international students, mainly mature students	1
	This programme accepted its first cohort of students in 2021/22. In academic year 2022/23 there were initially 10 students registered on the programme, 9 in the first year and 1 continuing onto the second year. 1 first year student is part time. Entry is in semester A. The standard one year programme PETPAM (180 credits) runs over semesters A, B and C; The Advanced Research programme PETPARM (240 credits) runs over semesters A and B for 2 academic years. There is also a part time route on the standard 180-credit programme, which runs over semesters A and B for 2 academic years. We have thus far had a mix of some domestic and some international students. We had one mature student in the first emotor of students.	

To edit the context statement, click on the pencil icon.

Once completed click the <u>contraction</u> to return to the previous page.

### 4.2 Programme Leader(s) and Reviewers assigned to a programme

At the top of the Action Plan there is a people icon. Here you can see which Programme Leader and Reviewer have been assigned to the plan (in the case of combined Programme action plans which have more than one PL contributing to the combined plan), who will be able to write action points.

#### 4.3 The Programme Leader and reviewer receive notifications:

The Programme Leader will receive an automated notification email if there are new comments from the AQ Reviewer and vice versa. The workflow checks the Action Plans three times a day at 7am, 11am and 3pm (GMT) to send notification emails.

Example of a notification email:

From: flowservice, UH <flowservice@herts.ac.uk> Sent: 19 August 2022 15:30 To: Anthony Crook <t.crook@herts.ac.uk> Subject: TEST - Ignore - New Review Comments Available for TEST\_COURSE, Test purposes only

Dear Anthony,

This is an automated email to let you know Fiona Crawford has reviewed TEST\_COURSE, Test purposes only

Click this link to the action plan to read their comments.

Kind regards, Microsoft Workflow Service

# 5 Accessing the action sections of the CEP Action Plan

There are eight action sections in the action plan:

- Section A: Actions arising from the External Examiners' report
- Section B: Actions arising from NSS data (UG)/ PTES (PG) and any other student feedback
- Section C: Actions arising from data recorded on Tableau
- Section D this is now redundant because it has been merged with section B
- Section E: Recommendations from Validation, Review or Herts Learning Reapproval
- Section F: Ongoing development to enhance the student experience/programme
- Section I: Modules identified as being at risk
- Section G: Any other actions

To **open each section**, click on the > arrow on the left of the tab:

#### 6.1 Issues

The Issue box is used to identify the **issue**: please ensure the issue is clearly described so that reviewers and other readers gain a good grasp of the issue. Quantitative or qualitative evidence should be used to illustrate the precise nature of the issue and confirm its significance.

Each section now has a drop-down menu under 'Issue', including an option '**No Action Required**'. When you select 'No Action Required from the drop-down menu under 'Issue', this will automatically change the setting from 'Medium' to 'Complete' under 'Action':

$\sim$	Section A	Actions arising from the External Examiners' r	eports - (1) active, (0) actions completed			
	Issue	Action	Criteria for Success	Ownership / Responsibility	Progress/Completion Comments	Reviewers Comments

#### Tableau data

To retrieve Tableau data, you need to go into Tableau. The CEP action plan now has direct links to different types of Tableau data via a 'Tableau Links' drop-down menu. These open up in a new browser window. If you are not on campus, you need to access Pulse Secure for this:

HE Last	MCS t edite	d by:	CEP - Action Plan Screen	Tableau Links V	x <sup>2</sup>	仚

#### 6.2 Actions

The **Action box** is where you write the action you will take to resolve this issue and to mitigate any risk. They should be structured in a clear, concise manner and the outcome should be measurable, to see whether you have successfully completed it. See examples in <u>Appendix 1</u>.

The action box has a **calendar function**, which is used to identify the date the action is due to be resolved. You can open this by clicking on the due date. This gives you a drop-down calendar, that you can use to set a date:

Ê	Issue			ļ	Action			c	riteria f	or Success Ownership / Progress/Completion Comments Reviewers Comments		
$\sim$	Section A	Actions a	rising fr	om the I	External	Examine	ers' repo	rts - (1)	active, (	0) actions completed

			18	19	20	21	22	23	24			
			25	26	27	28	29					
							Ok	Cano	el			

All actions are set to Medium. You should choose up to a maximum of 5 High priority action points. Between 0-3 of these actions may be from NSS/PTES, any remaining priority actions could be based e.g. on poor student performance data on Tableau, that the programme is at risk of not meeting the OfS B3 conditions, recommendations of External Examiners. You can **indicate your priority actions** by using the drop-down menu next to the calendar.

# 6.3 Criteria for Success

The box labelled Criteria for Success should set out the desired effect if the action were successful (i.e. what visible positive effect is your action going to have?).

# 6.4 Ownership/ Responsibility

The next box asks for the Ownership/ Responsibility of the action. List here the person from the programme team who has been identified to carry out the action (Job title, not name).

#### 6.5 Progress/ Completion Comments

You can comment on progress of the action point in the Progress/ Completion comments box. The completion comment by the Programme Leader needs to demonstrate impact. This may not have yet achieved the desired impact and this should be noted here if that is the case.

#### 6.6 Reviewers' Comments

The 'Reviewers Comments' box will be used by the AQ reviewer to give you feedback on your action. The Reviewer comments will acknowledge satisfaction with the impact and marks the action as completed. This Reviewers' comments box is 'read only' for Programme Leaders.

When the Programme Leader views the Action Plan, new reviewer comments are indicated in yellow text as shown, and you can click on these to open that section (as below), and the background of the new comment is lightly shaded. There is a tick box for the PL to indicate they have seen the comment and clear the notification. Reviewers do not get notified of changes.

	📁 New comments available
Progress/Completion Comments	<b>Reviewers Comments</b>
I've worked my socks off day and night and enjoyed every minute of it	Fabulous, well done Fred. This programme has exceeded expectations thanks to you. I'll recommend you have a pay rise!!

A safety check is provided before you close action plan:

#### An alternative way to edit an Action Plan

Another way for data entry has been introduced. Clicking on the pencil icon takes you to a single page view of that line in the action plan. This makes it easier to cut and paste. You can't scroll to other entries in this single page view.

# 7 What to include in the Action Plan

### 7.1 Types of issues to address and where

Here you will find information on what types of issues should have an associated action point in the different sections of the CEP Action Plan. If there is nothing to include in a section, please select 'No Action Required' from the drop-down menu:

#### • Actions arising from the External Examiners' report

You need to include actions on all External Examiner recommendations. Please use a new action box for each recommendation.

#### • Actions arising from NSS data (UG) – see Tableau / PTES (PG)

For NSS/PTES it is no longer required that a programme team generate an action for each question of the survey that is red rag rated. Teams should look across the data items including student feedback from outside the NSS/PTES and aim to develop **a maximum of three actions (priority actions)** that are likely to have an impact on improving NSS/PTES results going forwards. It is important that these priority actions are communicated clearly to all staff on the programme team and progress with the actions **is discussed at Programme Committees**.

#### Actions arising from data recorded on Tableau

Any items that are red rag-rated in the Tableau results for your programme require you to generate an action box even if it is subsequently agreed by your Associate Dean that no action is required (e.g. due to changes in the programme that have already taken place, small numbers etc). Note: This section does NOT include module failure rates. The rag-rating is done against the University benchmark. (see below).

- Ongoing actions arising from student feedback Any actions that are taken on the basis of formal and informal student feedback regarding the programme should be included here.
- Ongoing development to enhance the student experience/programme Actions that are fed in from School enhancement events should be added here.
- Recommendations from validations, Review or Herts Learning Reapproval Action points should be entered here for all recommendations from validations, Review or Herts Learning Reapproval, if applicable.
- **Modules identified as being at risk** This includes low responses to SVQ, differences in module grade profiles, high module failure rates etc. Please see the thresholds for module fail rates below.
- Any other actions
   Consider any other area of concern for your programme (e.g. PSRB reports, employer feedback for apprenticeships) and develop appropriate action points.

#### 7.2 University benchmark data

The benchmarks relevant to the CEP for 2024-25 are:

- Awards: 'good degrees' (only appropriate at programme level) Undergraduate: 62% and below; 85% and above. Action is needed both for too few and too many 'good degrees'.
- Graduate Outcomes

All graduates who have completed an HE course are asked to take part in the Graduate Outcomes survey 15 months after they finished their studies. This survey is undertaken by an external organisation appointed by HESA. We now have two years of Graduate Outcomes Data, 2020-21 and 2021-22. This can be found in Tableau. Graduate Outcomes data is important to the University as UK, FT, first degree student figures are used in University League Tables and are likely to be in the revised TEF.

The data includes the response rate, an employment indicator and graduate employment indicator. We are looking to achieve a high % of students with graduate employment. We are more likely to do well when compared to the sector in public data on our Graduate Outcomes if we get high response rates. You will see that some response rates are extremely low.

This year we are not rag-rating the Graduate Outcomes Data, so there are no red rag-rated actions that must be added to your Action Plan, but we strongly encourage you to look at your data and add an action if you think it is appropriate, either around the response rate or the % employment score.

#### Non-continuation Data

UG full-time /part-time Course year 1 to Course year 2, Course Year 2 to Course Year 3: 10% or more.

#### • Value Added Data

If VA score for a programme is 0.95 or less, in particular if BAME score is less than 0.95, then module data should be reviewed to identify the relevant action(s) to put in place.

#### Withdrawal Data

UG: an action needs to be generated if student **all year** withdrawal exceeds: 6%. PG: an action needs to be generated if student **all year** withdrawal exceeds: 5%.

• SVQ

There is no benchmark for 2023/2024 but please review the themes across modules in the qualitative data.

#### • Module Grades

Module Fail Rates above agreed thresholds (first sitting):

- Levels 0 and 4: 30% or above
- Level 5: 25% or above
- Level 6 and 7: 20% or above

Module Fail Rates above agreed thresholds (post re-sit):

- Level 0 and 4: 20.0% or above
- Level 5: 15.0% or above
- Level 6 and 7: 10.0% or above
- Core metrics (NSS/PTES) Action is only required for red-rated data.

# 7.3 SMART Actions points

Action points should be SMART. They should be structured in a clear, concise manner. SMART action points are useful when seeking agreement and setting expectations about what can and needs to be achieved.

ATTAINABLE	<ul> <li>Are the actions realistic? Are they within available resources, scope of practice/experience/knowledge and time allocated?</li> <li>How likely is it that this action will be achieved?</li> </ul>
	<ul> <li>What is the impact if the action is not achieved? Risk mitigated?</li> </ul>

<ul> <li>•Will the actions have a material impact?</li> <li>•Do you/team have the relevant expertise/standing to complete action?</li> <li>•What help will you require from others to assist with this?</li> </ul>	the
--	-----

TIME FRAME	<ul> <li>Are there clear short and/or longer term timeframes -specific dates attached to all actions?</li> <li>For longer term actions-have milestone dates been identified.</li> <li>What may impact or compromise timeframes? How will these be mitigated if perceived a concern?</li> <li>Is the deadline realistic?</li> </ul>	

# 8 Timelines for developing the CEP action plan

- There are three CEP Review Points during the year, and these are slightly different for UG and PG (see below).
- It is recognised that many programmes do not operate to the standard academic year and that it may be appropriate to delay consideration of a particular data set to a different Checkpoint when the data is complete. This explanation may be included in the context statement for the programme
- To help programme teams determine whether their data is more than just early indication data, SIP will provide reports to Schools indicating the point at which all students on the programme have been progressed on the system. This will enable non-standard programmes to decide at which of the three Checkpoints to report on their data.
- The Programme Leader must consult the University-generated summary data after each specified CEP Review Point and where a particular data set is **rated red** for the programme against the relevant benchmark, an action must be **initiated** within **six weeks** of the CEP Review Point.
- Identify a due date against which actions will be met.
- Actions that are rated as **high** must be **completed** within **60 days**.

	July		By 30 July: School reviewer signs off all completed actions in readiness for archiving on the 31st	

# 9 Managing CEP Action Plans

# 9.1 Monitoring and updating of the CEP Action Plan

The frequency at which the action plan should be monitored will be dictated by:

- the rating given to the actions and
- the identified timeframes agreed for each action.

At the point of monitoring the action will be evaluated for its impact. If the desired impact has been achieved, then the action may be closed. If there is no discernible impact, then further action(s) or a revised timeframe may be required.

The Programme Leader may add actions at any time if issues arise. The CEP action plan is a standing item on the Programme Committee agenda. The Programme Committee will agree the CEP action plan on an ongoing basis. Monitoring of the action plan should be aligned to and completed before the Programme Committee. This will then enable new actions to be agreed, the impact of existing actions to be identified and agreement sought on the completeness of those actions.

The Associate Deans of School (Academic Quality Assurance) will maintain and have oversight of all the School's CEP action plans and will sign off completed actions in the CEP database.

# 9.2 Sharing the CEP Action Plan

The whole action plan can be emailed to you as a html file by clicking the Page icon:

D : Ongoing Actions arising from students' feedback	Complete
E : Recommendations from validation or review' feedback	Everything (All of the above)
F : Ongoing Developments to enhance the student experience /	ogramme
G : Any other actions	Notify me when done by
H : Degree Apprenticeships	Teams Email Both Teams and Email
1 : Modules identified as being at risk	The programmes selected for export (1)

# 9.3 The archiving of CEP Action Points

Once a year, on the 31<sup>st</sup> of July, all action points which have been signed off as completed by the Reviewer are archived. This means that they are removed from the live action plan and put on a SharePoint site. As a result, you will no longer see these historic action points in your CEP action plans.

There is a read-only document library with the archived reports <u>HERE</u> which you can access and use as required.

# **Appendix 1: Writing Action points**

Clear, unambiguous language should be used, the action plan should not be a task list.

Actions will have a clear start and end point.

Hints:

Where there are several action points that are closely linked, consider grouping these together into one overarching action point.

e.g. Student voice-issues may have been identified in NSS/PTES and SFQs.

Action points should be written with enough detail to be helpful for the understanding of someone outside the programme team. Would a new team member be clear about the specifics of the action points and be able to assess achievement without explanation?

What indicators will you use to measure progress and success?

Qualitative and quantitative sources?

Actions should be consistent with School/Department and University strategic plans. How will success of the action contribute to the achievement of the relevant priorities for Department/ School/ Herts?

Action Plans should capture ideas for programme development including those discussed in programme team enhancement events (taking your programme from good to great)

The Action Plan should be a collaborative document and there should be regular consultation and communication with programme staff and students and a standing item at Programme Committees.

The **impact** of the actions should be evaluated as part of the completion comments.

Ensure each action point is allocated to **one** individual (Role or job title) with overall responsibility for its implementation. This person should be a member of the programme team and the action **should be relevant** to their role and grade.

Review and monitor the Action Plan on an ongoing basis to ensure effective completion of identified actions and implementation of identified enhancements.

When writing the Action Plan, Programme Leaders should be mindful that the plans will be shared outside the programme team with senior staff in the School and Central Teams.
